

Battery Charger

Features :

- Charging process protection short circuit prevention
- Intelligent soft start battery and charger protection
- Intelligent temperature control Improve charging efficiency
- Low temperature working increase service use time
- Automatic power-off remove hidden dangers
- NOTE:DO NOT REVERSE POLARITY

Model	MCH-1210A-S	MCH-1220A-S	MCH-1230A-S	MCH-1250A-S	MCH-2430A-S
Input Voltage	160-250 VAC				
Output Voltage	12V				24V
Rated Frequency	47-63 Hz				
Charger Current	10A	20A	30A	50A	30A
Efficiency	87%				
Material	Metal				
Battery Type	Lead Acid
